Edusmart Science

Multimedia Resource for Texas Grades 3-8

Spanish version available for Grades 3-5

Edusmart empowers teachers to deliver captivating science lessons aligned to the TEKS.

Edusmart's research-based design and flexible format adapts easily to support all types of instructional models including direct instruction, cooperative learning and inquiry based instruction.

Edusmart Science is a Flash-based program that is easy to implement. Can be installed locally or on a district server and works on MAC and Windows platforms.

Come visit us at booth #1426 to learn more about Edusmart Science and how it can support existing curriculum resources and programs to increase student engagement and performance.
